

Global Learning *programme*

Join the 5,500 schools already using the Global Learning Programme (GLP) to engage pupils and develop their knowledge, skills and values.

Incorporating a global element into teaching across the curriculum supports raising standards and SMSC. Providing the tools to underpin a richer, more interesting curriculum, the GLP offers a flexible and fully supported way to help teachers use real-world contexts to enthuse, inspire and engage pupils.

Register today to access the free staff training, funding*, guidance, resources and support from a local school network.

What will your school get?

- Eight free local training sessions
- Funding to support further training
- A self-evaluation process with a personalised action plan

*The GLP is funded by the UK government.
All schools can join the programme, but funding is only
available to Key Stages 2 and 3 in state schools in England.

An imaginative approach to the curriculum inspires pupils to become confident learners. It promotes strengths in pupils in writing, science, art and, increasingly, an awareness of global issues.

*Ofsted Inspection report:
Castle Park School, Cumbria,
March 2014*

It helps you not just to think about yourself but to think about other people around the world.

*Year 5 pupil,
Torriano Junior School,
London*

Pupils' spiritual, moral, social and cultural development is exceptional. They have a highly developed understanding of global issues and how they can make a positive impact on their local environment and beyond.

It's not just facts to get you through exams, it's learning about what's happening and discussing it.

*Sir John Lawes School
pupils, Hertfordshire*

When you talk to the children about their place in the world, and they get to explore different communities and different cultures, that's when they really come alive.
