Introduction

In order to help schools organise their Access Arrangements for GCE, VCE, GCSE, Entry Level and Key Skills, Hertfordshire Children, Schools & Families have compiled a register of specialist teachers who are able to assess students and help schools to complete applications.

The register is a list of teachers who have a qualification previously required for assessing for Access Arrangements and have asked for their names to be included. Please note that the teachers have not shown evidence of their specialist qualification, any checking is the responsibility of the school.

Each teacher has indicated the geographical area in which they are willing to work and schools within that area are able to contact them. All arrangements, including remuneration, are the responsibility of the individual school and the specialist teacher.

This register will be reviewed and reprinted for May 2010. At the back of the booklet there is a form to be completed by teachers who wish to be included in the next register or existing teachers who wish to have their details amended.
