

## Using The Foundation Stage eProfile

08ASS/015P

Being healthy	Staying safe	Enjoying and achieving	Making a positive contribution	Economic wellbeing
---------------	--------------	------------------------	--------------------------------	--------------------

The functions of the e-Profile will be demonstrated through using 'dummy data'. Teachers will be able to explore the programme using this data. There will be guidance on how to use the package to record attainment and produce basic reports. The e-Profile can be downloaded from the website. Individual school data needs to be imported at school. Please note, this course will not deal with the data import in detail. Further support for inputting data needs to be given at school level. The Assessment Team has a technical assistant who can support schools on a traded basis.

By attending this course you will:

- be given an overview of the e(electronic)-Profile
- be able to use the e-Profile to develop individual records
- be able to use e-Profile data to track progress of individuals/cohorts
